Did the online complement (vle.upm.edu.ph) help? If yes, in what way? If not, where did it fail?

Yes, it made the training more interactive and in a way pushed us to further study even outside training time. Yes. Easy access (unless you have connection) and less use of paper for the modules/materials, quizzes/assignments. Yes, it helps. It serves as a guide and introduction to the trainees especially to those who don't have any experience or knowledge regarding the website matters. Yes. It made the course much more interactive for us. yes, in a way user can easily understand how to use this proposed website. Yes. The online compliment helped us in keeping abreast on each topic. It also gave ...

Would you recommend this course to others?

Yes	9	100%
No	0	0%

People may select more than one checkbox, so percentages may add up to more than 100%.

Who should attend this course?

those who manage their own website those office that require info dissemination and communication with other stakeholders other admin staff The Administrators or anyone who will responsible in maintaining a website. Anyone who's interested and willing to gain more knowledge. alternative hrdo web admin Web administrators, faculty and staff. PDOs and employees who are tasked to develop and maintain their office's own website. Every one who's interested especially those who were assigned to maintain/ manage their existing website or for those with non existing website who wish to have one, for them ...

Please give your additional comments about the course.

None The overall service in terms of teaching and giving a knowledge to the trainees are very good. But I

think 2 days are not enough to introduce or endorse well all the topics for us to better know the handling process of maintaining a website. I want to take this opportunity to thank Sir Dong for the patience he gave for us to learned. Thank you sir Dong for being helpful through out the course. Though I think I needed more time to really familiarize myself. All in all it was a nice course. hope this will continue to enhance our knowledge about the websites. Helpful and easy to learn. Probabl ...
